Kevin Bohacz, President

CPrompt

10723 Preston Road #153

Dallas, TX 75230

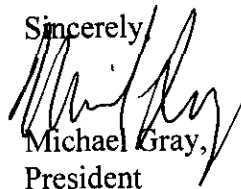

Dear Kevin,

I want to tell you how extremely pleased we are with the software development work your firm did for us. As you know, the previous people with whom we worked were unable to visualize our idea, nor make it happen. We appreciate your ability to translate our business needs into a program that is so simple for us to operate and has improved our profitability so much!

I will continue to recommend CPrompt to all my business associates, not only for the quality of your work, but also because you completed the project in less time than you had estimated and because the total cost came in under projection.

The recent changes you made to the software were incredible. Thanks for the solutions and for turning out the upgrade so fast. It is thrilling to work with a software developer who delivers!

Sincerely,

Michael Gray,
President
