To whom it may concern,

I, Yousri Salame, Strongly recommend Kevin Bohacz for any development work that involves any of the following areas:

- 1- Network application using TCP/IP or other communication protocols
- 2- Client/Server application using C++ or Java
- 3- System Architecture and design
- 4- Intranet applications

Kevin has been an asset for my team for the last four years. He has done an excellent job as architect of the DPC software Provisioning Robot System, the CHAMPS Provisioning Robot system, and the Java Client/Server Intranet system which feeds and controls the robots.

Kevin is highly responsive to his customers needs. He is flexible, Articulate, and a visionary. Kevin is a professional that gets the job done. I always depend on Kevin for mission critical assignments.

Again I strongly recommend Kevin as a person as well as a professional. If you have any questions please feel free to contact me at my office number listed below.
